Utopian Gelpolish

BASE COATS

BASE

Have a guaranteed good adhesion with this thin Base coat.

- Soak off time: 10 Minutes.
- Available in 5ml & 12ml.

BASE+

The base+ is a slightly thicker base coat with a medium viscosity. The Base+ is easy to apply, it does not flow into the cuticles. It has a good adhesion and evens out imperfections.

- Soak off time: 10 minutes.
- Available in 5ml & 12ml.

RUBBERBASE

RUBBER BASE

The rubber base goes up to 5 layers deeper into the natural nail. Which makes lifting a thing of the past. It is suitable for gel, acrylic and gel polish. Also very suitable for leveling irregularities: both the natural nail and acrylic such as file marks.

Extra Durable - Great for reinforcing thin, brittle, splitting nails - Perfect combination of toughness and elasticity for extra durability - Superior flexibility and adhesion - Smooths - Thick Consistency - Soak off formulation

First apply a thin layer and cure. (UV: 2 min. - LED: 1 min) You can apply a thicker layer and let it level.

- Soak off time: 10-12 minutes.
- In bottle: 5ml/12ml
- In jar: 5gr/15gr/50gr

TOP COATS

TOP & GO

MATT

On Spot Topcoat

TOP & GO

Flexible top gel which gives a long lasting high gloss. This top gel has no sticky layer after curing. Curing time: 3 min. in UV - 1 min. in LED. UV-resistant.

- Soak off time 10 minutes
- Available in 5ml & 12ml

SO MATT

Immediately matt effect and without a sticky layer, this flexible topgel gives a beautiful, instant long-lasting matt effect. Velvet Matt effect that really stays Matt.

- Soak off time 10 minutes
- Available in 5ml & 12ml

ON SPOT TOPCOAT

Can be applied over gel polish, gels or acrylics and has no sticky layer after curing. Top with black flakes in it, for a unique effect. UV-resistant.

- Soak off time 15 minutes
- Available in 5ml & 12ml

GLITTER TOP

GOLD

SILVER

SO SPARKLY

GLITTER TOP

Can be applied over gel polish, gels or acrylics and has no sticky layer after curing. Gives a soft glitter effect. UV-resistant.

- Soak off time 15 minutes
- Available in 5ml & 12ml

Soak off time: 10-12 minutes.

CAT EYE COLORS

Apply the Cat eye over a black layer. Hold the magnet above the nail until the desired result is obtained.
Cure and place a topcoat.

FOIL IT ON

Apply a very thin layer of Foil it on Clear to the desired place.
Cure the gel for approx. 1 - 2 minutes, depending on the strength of your lamps.
Press the desired foil on the Foil it on clear.
Rub thoroughly over the foil so you don't forget any parts.
Look at the sides to make sure everything sticks.
Then you take the plastic off in a flowing, rolling movement, so the foil remains stuck.
To guarantee the durability of your design, you seal it with the Shine & Go top coat (No Wipe) or with the Top & Art (with adhesive layer).

SAMPLE PACKAGE

Do you want to test the quality of the SO GUILTY Utopian Gelpolish yourself?
It is possible with our sample package.

Can also be used as a starter Package. The sample package contains:

Base - Base+ - Rubber base - 2 Colors - Top & Go - Glitter Top - So Matt
(all in 5ml)

SO EASY BUILD

The SO Easy build is a 3-in-1 builder in a bottle. Ideal for building the nails with templates or extending the nails using nail tips. It is also ideal for applying as a base coat. Builder in a bottle is base and build in one bottle.

The SO Easy build offers easy application, fast application, optimal adhesion and is leveling and flexible. This product contains no acid or primer and prevents yellowing of the nails. It gives no lifting and helps the natural nails grow, they stay in place for more than 4 weeks.

First apply a Breeze bond and then a thin coat, harden for 2 minutes under UV or 1 minute under LED. You can apply a thicker layer and let it levitate. Choose a natural look or place the desired utopian gel polish color on top.

The SO Easy Build is available in 5ml and 12ml.

SPECIAL DEVELOPED BRUSHES

All SO GUILTY brushes are designed to be super easy to use.

These specially developed brushes ensure an easy application and distribution of your product.

The pigments can be distributed perfectly because the brush adjusts itself to the shape of the nail.

The harder you press, the further the brush opens.

This is ideal for starters as well as professionals.

GEL

PREP

PRIMER ACID

PRIMER ACID

For a guaranteed better adhesion you need the primer acid. This is because it contains an acid. It ensures a better adhesion between the keratin of the nail plate and the application. This will prevent lifting. You need very little product to obtain the optimal adhesion.

PRE-PREP

PRE-PREP

The pre-prep temporarily and thoroughly removes the moisture from the natural nail plate. It promotes adhesion and reduces the risk of lifting. Extends the portability of nail polish, gel polish, gels and acrylic. Removes dirt from the nail plate.

BREEZE BOND

BREEZE BOND

The Breeze-bond guarantees an extremely good adhesion for gel, gel polish and acrylic and prevents lifting. It is easy to apply and does not burn on nails or cuticles. It is air drying, it is better for the natural nail and contains no acids.

BUILDER GELS

BASE GEL

The Base Gel guarantees a superior adhesion to the nail. This is because this gel contains an acid. The acid provides an extreme adhesion to the nail plate.

Characteristics: Curing Time: UV - 120 seconds / LED - 90 seconds - Medium Viscosity - Transparent

MASK AWAY GELLY

With our Mask Away Gelly you are guaranteed to put a perfect reverse french.

Characteristics: Curing Time: UV - 120 seconds / LED - 90 seconds - High viscosity - Builder Gel - Cover - Thick jelly-like texture - Suitable for modelling long shapes - Not Self-levelling - Easy to equalize using a brush

SUPREME+

The Supreme Plus Soft Pink is guaranteed to give you a good adhesion to your nail. It is suitable for gel and gel polish. For you this means that you can give every client beautiful, even nails without detaching.

Characteristics: Curing Time: UV - 120 seconds / LED - 90 seconds - High viscosity - Builder Gel - Suitable for modelling long shapes - Not Self-levelling - Easy to equalize using a brush

SO BUILD UP GLITZ

This glitter construction gel is ideal for building up and extending nails. It gives a fantastic sparkle. If you like to fade a french you will get a beautiful result. It is a non heating gel and does not run into the sidewalls.

It is easy to model & file, without the risk of damaging the glitter effect.

Characteristics: Glitter construction gel - Available in 4 colors Glitter construction gel - Curing time: UV - 120 seconds / LED - 60 seconds - NO HEAT formula - does not burn - Medium / High viscosity - Very good adhesion - Acid free product!.

BUILDER GELS

FIBER

With our supreme fiber you are guaranteed anail with extra strenght. This is because the supreme fiber is equipped with fiber particles. This makes the building gel more powerful than ever before. For you this means that you can easily build a nail with a superior adhesive strenght.

Characteristics

Curing Time: UV - 120 seconds / LED - 90 seconds
Enhanced control due to thixotropic properties
Added fiber particles for additional strenght
Ideal Gel for warm summer climate
Acid-free product!
Medium Viscosity
Self-levelling

Higher viscosity for faster applications
Special Formula with Fiberglass
Has builder capacities
Available in 4 colors
Excellent adhesion
Benefits of Gel
Strongest Gel

BUILDER GELS

STRETCH BUILD

The stretch build ensures a smooth nail.
This because it will move with the nail.
The goal is to prevent painful nails.

Characteristics

Curing Time: UV - 120 seconds / LED - 90 seconds
Very good self-levelling proportions
NO HEAT formula - Doesn't burn
Medium / low Viscosity
Available in 5 colors
Very good adhesion
Acid-free product!
One-phased
Adds shine

COLORS

Our color gels guarantee a perfect coverage.
This is due to the high pigmentation in the colours.
With 1 or 2 layers the nail is perfectly covered.

Our color gels guarantee a perfect coverage.
This is due to the high pigmentation in the colours.
With 1 or 2 layers the nail is perfectly covered.

SPIDERGEL

Spidergel is easy for making Nailart designs. It is perfect for thin lines.

1. Use the So Dotting Tool and remove the spider gel from the jar.
2. Carefully tap the gel on the SO Dotting Tool and slowly pull a “spider line” from one side of the nail to the other side.
3. You can complete the desired design by pulling several lines back and forth.
4. Curing and finishing with Top & Art or Shine & Go.

SO STICK IT ON

The SO Stick it on ensures the perfect adhesion of your nail art stones.

Place the SO Stick It on on the nail where you want the gem - place the gem on top - cure for one minute in a dual wave lamp.

PINK RIBBON

Initially Pink Ribbon wants to increase the visibility and knowledge about breast cancer. In addition, it wants to promote dialogue, reduce feelings of anxiety and loneliness and break taboos by encouraging certain behaviours and attitudes. Finally, Pink Ribbon wants to support concrete projects that improve the well-being and quality of life of women and men who are confronted with breast cancer and their environment. That's why we donate! Pink Ribbon will receive €12.00 per sold box.

In the Pink Ribbon box, you will find 6 Limited Edition Colours and an extra gift.

Be quick, the stock is limited.

The colours are also available separately.

TOP COATS

TOP & ART

TOP & ART

The top & art guarantees a long lasting high gloss. This because the finish will not get dull. This makes it perfect for protection your nail art.

SHINE & GO

SHINE & GO

The shine & go has a thin and low viscosity that guarantees you the ultimate high gloss. This because it is specifically made for the shine. The finish will not get dull or will not turn yellow. The shine & Go seals the artificial nail and protects it from stains. It can be used on acrylic, gel or fiberglass. The Shine & Go is UV-resistant and no longer has a sticky layer when it comes out of the lamp.

- Curing Time: UV - 120 seconds / LED - 120 seconds
- Flexible
- No sticky layer
- Highly resistable for cracking
- Ultimate high lasting shine
- No cool down needed
- Easy for fast applications

Matt Finish

MATT FINISH

Create an instant matt effect on your color gel with the Matt Finish.

- Curing Time: UV - 120 seconds / LED - 90 seconds
- Sticky layer
- Becomes Matt once the sticky layer is removed

+ 1 FREE BRUSH

A collection of SO ACRYLIC nail products is displayed on a light-colored, textured fabric background. In the foreground, there are five small, round, gold-rimmed pots of acrylic powder. The labels on the pots are: 'SAW White' (top left), 'SAMA Mask Away' (top right), 'SAR' (center), 'SALP Light Pink' (bottom left), and a partially visible 'SALP' (bottom left). To the right of the pots are two large, white, cylindrical bottles. The bottle in the foreground is labeled 'SO ACRYLIC FAST SHAPE' and 'GUILTY ICONIC NAILS'. The bottle behind it is partially visible and labeled 'SO ACRYLIC EASY SHAPE'. A red flower is visible in the bottom left corner. The brand name 'SO ACRYLIC' is prominently displayed in the center of the image, flanked by horizontal lines.

SO ACRYLIC

SO ACRYLIC

The SO Guilty SO Acrylic ensures that your clients can enjoy beautiful nails for at least 4 weeks. This is because acrylic is a very strong product which makes it less fragile on the nails. With its superior adhesion you are sure of long lasting results. It can be used for both short and long nails and is easy to remove.
